AUDIT REPORTS

DYAL SINGH COLLEGE,
KARNAL

Environmental Awareness: A Pillar of Our Institutional Identity

Dyal Singh College, Karnal, is deeply committed to promoting environmental sustainability and awareness, setting an exemplary standard in ecological responsibility. The institution adopts a comprehensive approach to integrating sustainable practices into its operations and fostering environmental consciousness among students, faculty, and the community.

The college conducts **regular Energy, Environment, and Green Audits**, ensuring optimal resource utilization, reducing carbon footprints, and maintaining a green and sustainable campus. A **solar energy system** has been installed, reducing dependency on conventional energy sources and promoting the use of clean, renewable energy. Additionally, a robust **recycling mechanism** efficiently manages waste by converting biodegradable waste into compost and recycling non-biodegradable materials. A **rainwater harvesting system** further conserves water resources and replenishes groundwater levels.

A distinctive feature of Dyal Singh College, Karnal, is its **QR-coded trees initiative**, combining technology and biodiversity to promote awareness of native flora and active student engagement in environmental preservation.

Environmental education is integrated into academic and extracurricular activities through seminars, workshops, and projects on renewable energy and sustainable practices. Students regularly participate in **cleanliness drives**, ensuring a litter-free campus and contributing to broader Swachh Bharat Abhiyan initiatives. Events such as Earth Day celebrations, plantation drives, cycle rallies, and campaigns for a plastic-free campus further solidify the institution's commitment to a greener future.

Dyal Singh College, Karnal, continues to inspire and nurture eco-conscious global citizens, championing environmental stewardship and sustainable living.
